

Tank Mount Series

Standardized Process Weighing Solution

Integrated Weighing and Batching Solution for System Integrators, OEM's and End Users

FEATURES

- Fully standardized equipment
- Off-the-shelf availability
- Three different weigh modules cover low and high capacities

APPLICATIONS

- Weighing of silos, tanks, vessels, bins, hoppers and bunkers
- Level monitoring, weighing or process control of materials such as liquid, powders and granules

BLH Nobel – Weighing Experts

BLH Nobel is recognized world wide as a leader in the field of industrial weighing and force measurement. With decades of experience, we are equipped to address every imaginable weight-processing need.

Our Tank Mount Series is a cost-effective full range weighing solution that is suitable to measure everything from silos and process vessels to ingredient storage bins to clean-in-place batching processes. The Tank Mount Series weigh modules can be combined with a range of accessories and instrumentation for a complete weighing solution that suits your needs.

EconoMount and TankMount – for Capacities up to 5 Tons

Single ended shear beam weigh module

Semi-floating module design restricts lateral horizontal movement but allows a radial horizontal movement and moderate degrees of angular movement to accommodate construction variances

Well suited for general industrial applications that require retrofitting on existing structure or hopper into a scale

KDH-5 – for Capacities above 5 Tons

Combines high accuracy with a compact and robust mechanical design

Double-ended shear beam weigh module with floating load point that allows radial horizontal movement due to thermal expansion

Load Cell is easy to install and remove from the weigh module bracket

Design non-sensitive to side loads
