PROGRAM DESCRIPTION

G4

Program: G4MI_1.8.126.0

Program for Max/Min function
This description is valid for:

**G4 Weighing Instrument** with application program **1.8.126.0**

See also the following descriptions

**G4 Multi Channel Weighing Instrument** Program version 1.8.0.0  

**G4 Multi Channel Weighing Instrument** Program version 1.7.0.0  
**Operating instructions, Quick installation PM/DT/HE** (www.vishaypg.com/doc?35178)

If these descriptions in any case are contradictory, this description is valid.

**Special Program options:**
To get the functionality described below the following program option has to be activated.

13: **Max/Min Function**: Option for Max/Min values

**Function**

This special program includes a Max/Min and Hold function. The functions works on gross and net mode.

**General**

The Max and Min values can be shown on the information lines, sent to an analogue output, printed, or it can also be fetched by serial communication.

**Operation**

The G4 will always display the HIGHEST (Max) and LOWEST (Min) value and keep it even if the actual gross or net weight is decreasing (Max) or increasing (Min).

If the measured Max value is increasing again and became higher than the displayed Max value, the new value is used as Max value.

If the measured Min value is decreasing again and became lower than the displayed Min value, then the new value is used as Min value.

<tr>
<th>Scale: 1</th>
<th>2011-12-02 19:07</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gross</td>
<td>143.4 kg</td>
</tr>
</tbody>
</table>

**Max/Min Values on Information lines**

With four new set-up parameters it is possible to configure the instrument to display Max/Min values on the information lines.

Max value for displayed scale is reset with 'R.MAX'. Min value for displayed scale is reset with 'R.MIN'.
Parameters

Menu ‘General’

Info Line 1 Mode

<table>
<thead>
<tr>
<th>Parameter</th>
<th>New choices</th>
</tr>
</thead>
<tbody>
<tr>
<td>Max Value Gross</td>
<td><strong>Max Value Gross</strong>: The max gross value of the shown scale is presented on the first info. line</td>
</tr>
<tr>
<td>Max Value Net</td>
<td><strong>Max Value Net</strong>: The max net value of the shown scale is presented on the first info. line</td>
</tr>
<tr>
<td>Min Value Gross</td>
<td><strong>Min Value Gross</strong>: The min gross value of the shown scale is presented on the first info. line</td>
</tr>
<tr>
<td>Min Value Net</td>
<td><strong>Min Value Net</strong>: The min net value of the shown scale is presented on the first info. line</td>
</tr>
</tbody>
</table>

Info Line 2 Mode

<table>
<thead>
<tr>
<th>Parameter</th>
<th>New choices</th>
</tr>
</thead>
<tbody>
<tr>
<td>Max Value Gross</td>
<td>Defines the mode of the second information line on the 1 scale screen on the graphical display.</td>
</tr>
<tr>
<td>Max Value Net</td>
<td>See parameter ‘Info Line 1 Mode’ for details</td>
</tr>
<tr>
<td>Min Value Gross</td>
<td></td>
</tr>
<tr>
<td>Min Value Net</td>
<td></td>
</tr>
</tbody>
</table>
