Option codes
This program requires program option code(s) for
01: Batching
06: Option 6

Function
This special program adds a five-figure Batch No. which is entered as a set-up parameter in the ‘Special menu’.
The Batch No. is incremented with one each time batching is started and printed out in the batch report header (entered value = 0, printout of 1 etc.).
During batching the Batch No. is displayed as in the figure below.

```
Batch No. 12345
Amount: 003.8 kg
Batching course: 40.0 kg
Cnt: 1
```

New set-up parameter
Menu 'Special menu'
Batch No.                              Modbus: 41338 (46338)
Range: 0 to 99999                      Five-figure Batch No. which is incremented with
<0>                                   one each time batching is started and printed out
                                      in the batch report header.

Modified batch printout
The Batch No. is included in the batch report header.
Ex.

```
2000-05-03 13:35
Batching report
Batch No. 12345
```
